Power and IT Networks Cabling
Temporary Closure of Cromer Terrace

From Monday 2 October – Wednesday 10 January 2018

- Essential cabling works will take place along Cromer Terrace in order to lay new infrastructure for the University.
- This work will help strengthen the University power capabilities and provide essential networking cabling for IT systems.
- The works are being split into three phases to minimise disruption.
- During this time, vehicular access to Cromer Terrace will be restricted and diversions will be in place to redirect traffic away and around the works.
- Pedestrian access from Mount Preston Street to Lifton Place / University Precinct will be maintained for the duration of the works.
- Pedestrian access will also be maintained to all properties along Cromer Terrace.

For further information about the disruption, please visit campusdevelopments.leeds.ac.uk/disruptions

Should you require any further information, please do not hesitate to contact Ben Walker, Project Manager.
